

Database Engineer (SQL+C#)

Location: Katowice

Every year Kroll Ontrack collects and processes data for our **12000 clients** from over **120 countries**.

Every day over **30 million** documents can be processed and analyzed in our **12 datacenters** worldwide.

This position is primarily focused on supporting and modifying existing databases and applications, implementing additional functionality and analyzing the document processing process. This role encompasses a variety of tasks which are generally achieved by using T-SQL and some .Net / C# programming. There is a strong focus on database work, with many of the tasks involving the loading, manipulation and presentation of data.

You will be...

- working with databases using MS SQL T-SQL and other MS SQL tools to accomplish client's requirements
- assisting with the migration of data from both internal and external systems
- creating quick turnaround and bespoke SQL and C# tools to meet client or business requirements
- communicating in English with team members and other departments in the UK, the US and Japan

You will need to...

- carry out your work in an accurate and safe manner – requiring correct levels of testing and sensible use of transactions and backup tables etc.
- rapidly prototype new tools to achieve the required results in a short timescale
- quickly learn new technologies and processes as the data systems used are continually being developed and refined by the development teams in the US and Poland
- be able to specialize and, if required, pass this information to other members of the team

Requirements:

- Experience of working with complex MS SQL stored procedures and functions.
- .Net programming knowledge using C#.
- Ability to make sound technical decisions in a fast paced environment.
- Ideally educated to degree level or equivalent in a computer related subject.
- Basic DBA knowledge with MS SQL Server and SSIS / SSRS skills would be advantageous but not essential.

Don't hesitate! Send us your resume and cover letter in English to: praca@krollontrack.pl
